Hardware	\$255,185.84
Installation/Labor	\$43,250.00
Installation Monitor	\$450.00
<b>Total</b>	\$298,885.84

**Recommend bid award to 247 Security Inc. based on the lowest responsible bid of specified items. Purchase will be made through capital reserve funds. Please note the following:**

- 247 Security Inc. submitted a proposal for a 4 and 6 channel option. The number of channels determines the amount of cameras that can be active per vehicle. The administration recommends the 4 channel (camera) option to meet the District's needs.
- Wolfington Body Co. submitted a proposal with and without Zonar interface cables. These cables would be used to connect to a Zonar GPS system. The administration is recommending a non-Zonar GPS system through GPS North America.
- Link Communications submitted a proposal with and with AVL (Automatic Vehicle Location) which is a GPS system . The cost to award the cameras to 247 Security for \$199,042 and the GPS system to GPS North America for \$64,458.07 (\$263,500.07 combined) is less than the cost of Link Communications AVL proposal of \$290,933.15.
